Dry dirt and water vacuum cleaners

Version 2011/2012

INDUSTRIAL VACUUM CLEANERS

RK Series

The versatile dry material and water vacuum cleaner vacuums up dirt and water

REMKO RK 26 and RK 26 K Dry material vacuum cleaner

Compact units with high capacity

The dry material vacuum cleaners are just as well suited for commercial as private users. The units convince due to high suction power and easy handling. They can be used to vacuum smooth floors, carpets, and upholsteries, as well as wooden chips, broken glass, and even rubble. A permanent dirt filter is a part of the standard equipment. The RK 26 K design has a boiler cleaning set.

- Extremely high suction power
- Permanent dirt filter in standard equipment
- Very handy
- Problem-free transport
- Extensive accessories

REMKO RK 45, RK 55 and RK 75 Dry material and water vacuum cleaner

Powerfull units for professions with large container volumes

The dry material and water vacuum cleaners are especially designed for commercial use. The units convince due to concentrated suction power and many possible applications. At construction sites, in industry, craftwork, trade, and wherever very high capacity is required in dry and wet areas.ist.

- Large hose diameter prevents blockage.
- Container made of stainless steel
- RK 26 K ideal for boiler cleaning
